

Invisible Solution. Visible Results.™

GLUE DOTS®
Brand
Adhesive Products

www.gluedots.com

○ Glue Dots® adhesives can go anywhere and do almost anything. They can be used in a variety of applications in a wide range of industries:

- Packaging and material handling
- Printing, binding, mail and fulfillment
- Manufacturing and assembly

Glue Dots® are the Invisible Solution...

○ **Every problem has a solution.** The best solutions are the ones you can't see in the final product. Seamless. Hidden in the background.

Glue Dots® are the invisible solution for a multitude of packaging, printing and manufacturing challenges. They are pressure-sensitive adhesives that form an instant bond. Quick and easy to use, Glue Dots® leave no mess, no residue and no odor.

A variety of formulas, tack levels and profiles can fill any need. Overcome almost any obstacle.

...that Produce Visible Results.

○ **Glue Dots® put results first.** They present your product, preserve your brand, reduce costs, save time and provide a simple fix. All while staying out of sight.

Simple yet versatile Glue Dots® work in a variety of applications.

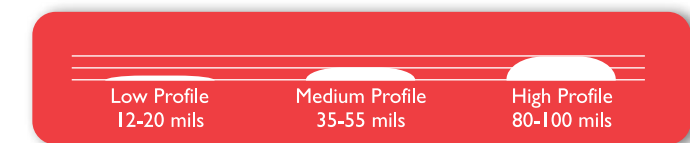

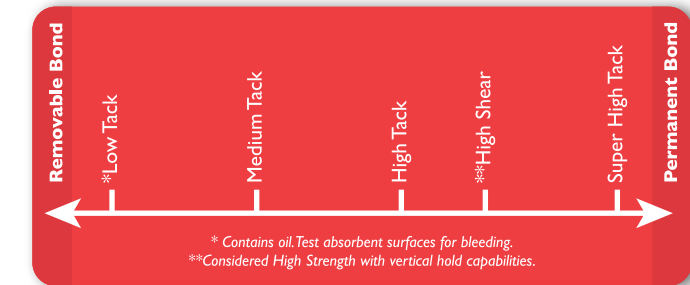

The Right Glue Dots® for the Job

○ **With five standard tack levels and three profile options,** there is a Glue Dots® adhesive for every application. Custom sizes, formulas and configurations are also available.

Low and Medium Tack are considered removable. Depending upon the substrates used, High Tack may be removable or permanent. In most cases Super High Tack creates a permanent bond and will tear paper.

As the strength of the bond is substrate dependent, we recommend adequate testing be conducted to determine the proper tack level for your application and will supply **Product Samples** throughout the testing process.

Low Profile Glue Dots® are thin and used for bonding level items. Medium and High Profiles are used to create or bridge a gap between substrates.

○ Glue Dots® adhesives provide visible results for many packaging applications:

- Keep labels facing forward
- Adhere packaging labels
- Secure promotional items
- Attach onserts
- Secure corner boards
- Seal cartons

Packaging

○ Carma Labs developed a multi-pack of its Carmex® lip balm for sale at warehouse clubs. But the products wouldn't stay in place on the backer card during shrink-wrapping. Applied with a SynchroDot™ Pro, Glue Dots® kept the products in place and helped Carma Labs stay on schedule.

“ Glue Dots® are the smart, versatile adhesive solution. ”

Secure corner boards

Invisible Solution

○ Glue Dots® put results first. Your packaging is everything. Good packaging showcases the product inside. The brand should stand out, not the adhesive.

Glue Dots® are the smart, versatile adhesive solution for countless packaging applications. Ideal for project-oriented environments such as sheltered workshops and contract packagers, Glue Dots® can be used for short-term and occasional projects, as well as long-term and ongoing ones.

Visible Results

○ On nearly any surface, clean, instant-bonding Glue Dots® keep items neatly aligned and secured, so your packaging is noticed.

With no drying time, Glue Dots® increase your productivity and are a safer alternative to hot melt adhesives.

○ Glue Dots® adhesives produce visible results for a wide range of printing jobs.

- Promotional items or gift cards
- Samples and coupons
- Clean tipping
- Brochure closures
- Apply accents

Printing

○ For iTunes, brand presentation is crucial. The printer needed an adhesive solution that created visual interest. Custom high-profile Glue Dots® applied using the Auto Dot Pro™, created a floating effect in the clamshell package. The iTunes® cards lived up to their brand, and the printer lived up to their reputation.

“ Glue Dots® are clean and invisible, so the finished piece stands out. ”

Brochure closure

Invisible Solution

○ Glue Dots® offer the simplicity and versatility printers require to meet their ever-changing needs. Easy to apply, Glue Dots® are suitable for large and small jobs, long-term or short-term projects.

With permanent and removable formulas available, Glue Dots® perform well in almost any application.

Visible Results

○ Glue Dots® can provide printers with the adhesive solution their customers require to deliver their message and present their brand. Glue Dots® work for virtually any type of printing job, including promotional items, mail and fulfillment, spot gluing and tipping.

Most importantly, Glue Dots® are clean and invisible, so the finished piece stands out, not the adhesive.

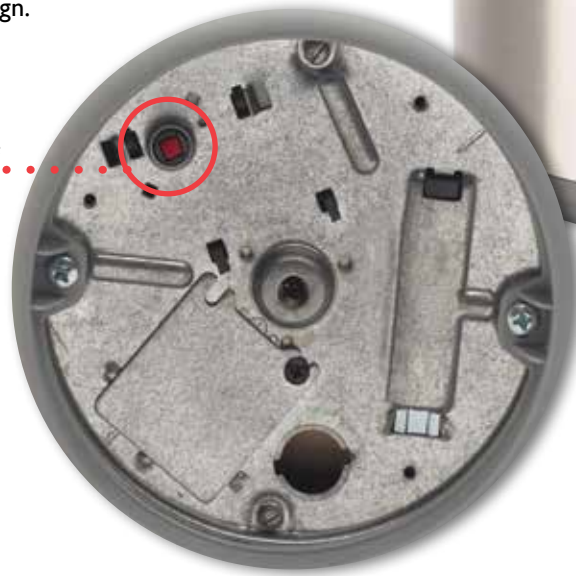

○ Glue Dots® adhesives provide visible results in a variety of manufacturing and assembly applications:

- Bond wire harness sleeves in place before heat shrinking
- Fixture components in product assembly
- Hold electrical components in place
- Secure gaskets

Manufacturing & Assembly

○ **Glue Dots® can even help** in the assembly of a product. A major manufacturer of waste disposals hit a snag when a reset button wouldn't stay in place during assembly. Custom Glue Dots® and the Auto Dot™ Pro kept production moving and avoided a costly product re-design.

Fixture electrical components

“ Glue Dots® are a unique fixturing adhesive for manufacturing and assembly. ”

Secure gaskets

Invisible Solution

○ **In an industry of fasteners and brackets,** instant-bonding Glue Dots® are a unique fixturing adhesive for manufacturing and assembly. Regardless of surface texture or shape, Glue Dots® offer the strength and profile options to make them an effective fixturing solution.

Visible Results

○ **The potential for Glue Dots® in manufacturing is limitless.** A low-cost, clean solution, Glue Dots® can secure hard-to-reach components and replace or work in conjunction with slower curing adhesives.

The results can be seen on the bottom line. Increased productivity. Quick turn-around.

“ There is a Glue Dots® applicator for every project, every facility, every need. ”

Application Equipment

Glue Dots® dispensers and applicators are designed to make using Glue Dots® adhesives faster and easier, while increasing productivity and reducing cost. There is a Glue Dots® applicator for every project, every facility, every need.

Dot Shot® Pro

Portable, lightweight, handheld applicator that goes anywhere.

EconoDot™

Affordable, easy-to-use bench-top dispenser that speeds up production.

Auto Dot™ Pro

Versatile, bench-top dispenser with variable speed.

Synchro Dot™ Pro

Fully automated inline applicator designed for high-speed production lines.
