

ABOUT ECLIPSE APPAREL

A portion of
all sales is
donated to the
**Pella Wildlife
Company.**

- Our entire line is created, developed, dyed and printed in Marlborough, NH and shipped from Keene, NH USA. Which makes our carbon footprint much smaller than most companies dyeing and printing overseas. It also allows us a very quick turn-around time for getting shirts to you, our customers.

- More than 80% of the cotton in our shirts is grown in the USA.

- We use Organic Reactive Dyes to create our dye library of over 600 colors.

- We use water based inks to create the amazing soft feel to our prints (99.5% of other T-Shirt printers use petroleum based ink to create their designs on apparel).

- Our shirts are 100% preshrunk cotton (even the thread that holds it together is cotton). If washed according to our label instructions, in cold water, not only will your shirt stay at the same size as when you purchased it, but also the print will remain vibrant for years to come.

- Our OEKO-TEX 100 Certification (one of the highest certification worldwide) guarantees our shirts are free of chemicals harmful to your body.

- Our commitment to the environment is in our bones, it's part of Eclipse Apparel's consciousness.

THE PELLA WILDLIFE COMPANY

A non-profit organization, Pella Wildlife Company was established in 2006 and focuses on three areas of animal welfare – education, sustainability and conservation.

Pella Wildlife Company is committed to providing schools, libraries, and organizations interested in wildlife conservation with opportunities to educate young and old on wildlife sustainability, ecosystems, and wildlife conservation issues from around the world. Hands on opportunities are provided to interact with mammals, reptiles, amphibians, and birds. To learn more, please visit:
